

PEL-UNITE PLUS PELLET BINDER

DESCRIPTION

Pel-Unite Plus is a specially modified, powdered lignin pellet binder with excellent pellet binding characteristics and exceptional ease of use. In particular, the product is virtually non-dusty which enhances its relevance in pellet binding applications.

TYPICAL ANALYSIS

Classification	Modified Lignin Pellet Binder
Density lb/ft ³	43-49
pH	4.5-6.5
Available Calcium (Ca ⁺⁺)	~2.0%
Sodium (Na ⁺)	<1.0%
Sugar	4.0-6.0%
Sulfur	1.5-2.0%
Color	Chocolate brown
Ingredient statement	Calcium montmorillonate, calcium lignosulfate, potassium sorbate (a preservative)
