

Dairylac® 80

Description:

Dairylac® 80 is a high lactose feed ingredient manufactured by roller drying fresh liquid whey permeate. This granular product contains β -lactose, the sweetest form of lactose. Dairylac® 80 is nutritionally sound and well suited for feed applications.

Usage:

Use Dairylac® 80 as a source of lactose in dry feeds. Inclusion levels range between 5-25% of the diet, depending on the age and weight of the animal.
