

## Zinc-Glycinate

### Active Ingredient

Zinc chelate of glycine hydrate

### Article

50349107	25 Kg bag
50566860	1000 kg big bag

### Specification

Content zinc mineral content min. 26%

Appearance White to beige colored, free flowing micro-granule, dust free, odorless (production related some off-colored particles are possible)

### Other chemical and physical data

Formulation	Micro granule
Residual Moisture	max. 3%
Particle size	min. 99% < 800µm max. 1% < 63 µm
Bulk density	800-1250 kg/m <sup>3</sup>
Solubility	soluble in water

### Stability

Store in a dry place. Keep bags tightly closed when not in use. The product has a shelf-life of 24 Months in the unopened original packaging.

### Application

Use as a trace element, Zinc glycinate is suitable for all types of premixes, mineral and mixed feed. The flowability and mixing behavior of the product is excellent and guarantees homogeneous mixing in all types of feed.

#### Note

*Glycinates are biologically highly active compounds. The product should be processed with all due care and attention to occupational hygiene following the instructions in the safety data sheet.*
