

DL-Methionine Rhodimet® (Adisseo)

Description:

Rhodimet NP 99 is a pure DL-Methionine from Adisseo intended for the production of animal feed. Rhodimet NP 99 is provided in the form of a powder. It can easily be used in premix factories and in feed factories equipped with a system for micro-ingredients.

Specifications:

Appearance	fine powder
Colour	white to cream
DL-Methionine Content	99.0% minimum
Loss on drying	0.3% maximum
Ash	0.3% maximum
Sodium sulfate content (resistivity in 1% solution)	0.3% maximum

Physical and Chemical Properties:

<u>Particle size</u>	
> 1250 µm	1.0% maximum
> 100µm	approx. 65%
From 50 µm to 100 µm	approx. 20%
< 50µm	approx. 15%
Apparent density	0.60 to 0.75 g/cm ³
pH (in 1% aqueous solution)	5.3 to 6.1
Heavy metals (as Pb equivalent)	< 15 ppm

Shelf Life:

5 years (60 months) from date of manufacture. Keep in original packaging, stored in a cool and dry place.

Packaging:

25 kg paper bag
750 kg & 1000 kg big bags

Storage:

Store in a cool and dry place. Avoid humidity. Seal container tightly after use.
