

Potassium Chloride – Red

(Dyna-K®)

Description:

Dyna-K is a feed-grade potassium chloride. It is a source of highly available potassium (K) and chloride (Cl) that will help meet animal and poultry requirements for these essential nutrients.

- Dyna-K is a rich source of potassium, a dietary essential for animals and poultry
- Dyna-K supplies potassium in readily available chloride form
- Dyna-K provides vital potassium which is essential for maximum activity of the rumen microbes.
- Dyna-K furnishes the supplemental potassium needed in formulas where forages and oil-meals are replaced with more economical ingredients that may be low in potassium.

Feed Label Information:

When adding Dyna-K to feeds, "Potassium Chloride" should appear on the feed label.

Specifications:

<u>Guaranteed Analysis</u>	%	<u>Physical Characteristics</u>	
Potassium (K), min	49.5	Blend of red and white particles	
		Bulk Density (Loose)	67lb/ft ³
<u>Typical Chemical Analysis</u>	%	Angle of Repose	33°
Potassium Chloride (KCl)	95.9		
Potassium (K)	50.3	<u>Typical Sieve Analysis (Tyler)</u>	%
Chloride (Cl)	47.6	Passing 14 mesh	99
		Passing 35 mesh	33
		Passing 65 mesh	5
