

Feed Grade Urea
46-0-0

Chemical Analysis:

Total Nitrogen (% N)	46.0 (minimum)
Moisture (%)	0.5% (typical)
Free Ammonia	135 pxt (maximum)
Biuret (%)	1.0% (maximum)
HMMT (hexamethylene amine)	0.15 – 0.2% by weight as anti-caking agent
Urea formaldehyde	0.45 – 0.55% as coating agent

Physical Properties:

Colour	Pure White
Granulation:	1 mm – 4 mm (90% minimum)
Free Flowing:	Treated against caking; 100% Free from harmful substances
Molecular Weight	60.06
