

Poultry Shell – Calcium Carbonate Coastal

Description:

High purity, feed grade Calcium Carbonate processed from Oyster Shell, Coral Calcium and Clam-Coquina Like Shell, high in calcium and low in magnesium. Coastal Brand Shell is an excellent source of calcium recommended for inclusion in feed rations for optimum eggshell quality. Coastal Brand Shell stays in suspension throughout the feed line making calcium available to all birds. This very high and consistent form of calcium is available to the bird many hours after feeding to help protect the medullary bone. Also, consistent Calcium to build the egg shell.

Guaranteed Analysis:

	%
Calcium Carbonate (CaCO ₃), (%)	97.0
Calcium (Ca)	38.5
Expressed as Calcium Oxide (CaO)	54.32%
Magnesium – less than	1.00%

Screen Size:

Poultry/Pullet	¼ x 20 mesh
Poultry II	10 x 16 mesh
Chick	6 x 10 mesh
Meal- Flour (Granular)	20 x 100 mesh
